

AUTOMATED • SIMPLE • SECURE

SECURELY
CONTROLLED.
SURPRISINGLY
FAST.

Advanced**EPCS**[™]
Freedom to prescribe

Electronically prescribe controlled substances to satisfy emerging state & federal requirements.

Automated

Every aspect of your workflow is paperless. AdvancedEHR tracks & maintains a full DEA audit history.

Simple

Our intuitive one-step process follows the same, familiar workflow you already know with our standard AdvancedRx product.

Secure

We offer a simple signoff process that uses your personal token & passphrase & meets regulatory requirements of participating states.

e**PRESCRIBE** CONTROLLED SUBSTANCES

We make prescribing of controlled substances fast, simple & affordable with high control & visibility. When you convert paper to electronic AdvancedEPCS all activities are tracked & available with detailed reporting.

You get a full audit history including who signed, what drug was prescribed, dosage & number of refills (remaining), date & time, pharmacy, prescription status, & prescription history by provider.

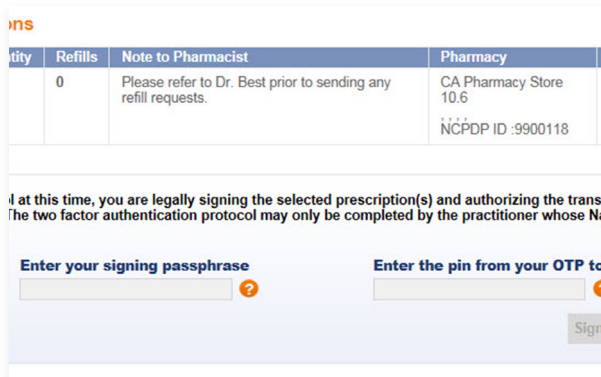

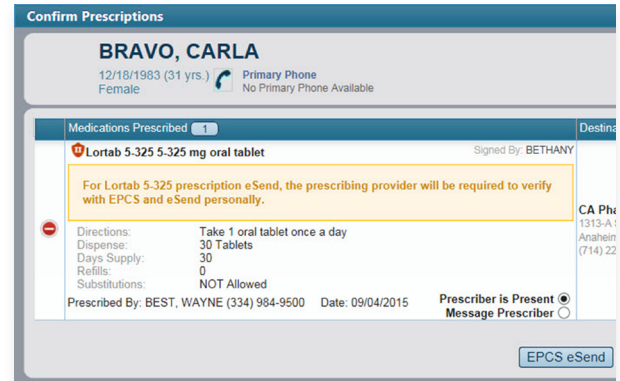

Advanced**EPCS**
Freedom to prescribe.

SEE HOW EASILY YOU CAN ePRESCRIBE CONTROLLED SUBSTANCES.

One-click electronic signing

Get immediate access to sign a prescription. Staff can easily message signing requests to a remote provider. The entire prescription process is conveniently managed within AdvancedEPCS.

Two-factor authentication

Easily complete the DEA-required two-factor authentication with a personal passphrase and secure token.

Prescription status & security validation

Access all prescription requests created by members of your clinical staff and ensure that prescriptions are reviewed and completed by authorized prescribers.
